

Naj-Caldeesh Trifecta Cheatsheet

...Only the essentials!

by @sacr3dbac0n

General Checklist:

- DDs must have Resolving Vigor (NOT Echoing), all encounters

Preliminary:

Get ALL side bonuses

Poxito (Boss #1):

Checklist:

- Healer slots Ele Sus for Totems

HEALER/DDs: Debuff/kill totems before the center Totem comes up – start too late and you fail the DPS check. Follow the orbs that come from the boss and split DDs between entrance and exit.

TANK: position boss on exit sawblades to remove her invuln buff. Avoid pointing the cleave at group. Grab archers and 2h adds as they come up.

Voskrona Stonehulk Poxito (Boss #2):

Kill add phases one at a time. Adds then Totem Adds. DO NOT overpush health thresholds. Watch out for boss cleave.

Encounter Flow:

- ↓ 90% then 80% Adds – Kill adds before pushing Totem adds.
- ↓ 70% - Totem Adds – Quickly kill adds before the ramping Totem pulses wipe (can only be blocked).
- ↓ 60% - Adds - Same as before. DO NOT overburn.
- ↓ 50% - Totem Adds – DO NOT overburn to 40%. Save ults for execute (30% Totem).
- ↓ 40% - Last set of adds. Crucial, DO NOT overburn.
- ↓ 30% - Totem Adds – IGNORE Totem Adds – drop ults on boss and execute.

Talen-Lah and Bar-Sakka (Boss #3):

Bosses alternate. Biggest threats: Talen-Lah walk and Bar-Sakka Slam/Cone or 60% roll. **TANK:** AVOID moving Bar-Sakka away from where he comes in. This way, we always know where he leaves at 60%.

- Add (Crawlers and 2H/Archers) - Cleave them down, accumulation can cause enormous resource drain.
- Talen-Lah Walk - The mage regularly walks (indicated by a rectangle). Either get ahead and dodge through, or carefully trail behind weaving through the scattering AoEs.
- Blue Puddles - Dodge according to Code's Combat bar.
- Dirge - Two AoEs that deal splash to group if not soaked. Healer and a DD should stand inside to mitigate this. Bias yourself toward the outside in case if you have to roll the Blue Puddles from Bar-Sakka.
- Bar-Sakka at 60% - STAY AWAY from where Bar-Sakka came in. He will roll away in that same direction. If in his path, you will die.
- Bar-Sakka at 5% - Execute Talen-Lah. They are both active at this point, so do Dirge and kill Talen-Lah to end the fight.

Bosses #1 and #2 (Poxito and Voskrona Stonehulk Poxito)

Final Bosses (Talen-Lah and Bar-Sakka)
